Here's the top 10 most common New Year's resolutions:

1. Spend more time with family and Friends
2. Become more fit
3. Loose weight
4. Quit smoking
5. Enjoy life more
6. Quit drinking
7. Get out of debt
8. Learn something new
9. Help others
10. Get organized

What's yours?

5 Reasons to Destroy a Hard Drive

- 1) Hard drive shredding provides security and peace of mind. Hard drive shredding eliminates any chance of data breaches resulting from the improper handling of retired electronic media.
- 2) Time is money and proper hard drive shredding services saves your business both. Your technicians that are hammering, drilling, wiping, and degaussing drives could be using their time solving problems and working on the projects you need completed to run your business.
- 3) The Future Is Unclear. Consider what the replications of what an unlikely breakthrough in data recovery could mean for all of the hard drives you did not physically destroy.
- 4) Your Equipment is Obsolete. If the equipment you are retiring is obsolete there is no reason to be paying for the drives to be wiped as there is no legitimate market for the equipment to be resold on.
- 5) You're Already Shredding Every Day. Odds are your company set aside a large budget of labor time or money to an outside shredding service in order to shred paper documents containing information that has to be legally or otherwise destroyed.

FCRS Community Organization of the Month:

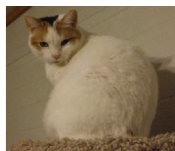

A non-profit, no-kill animal shelter in Appleton, Wisconsin! **SAVING PAWS Animal Rescue Inc.** is a nonprofit organization dedicated to rescuing homeless, abandoned and special needs animals in Northeast Wisconsin and finding new adoptive homes or providing lifelong

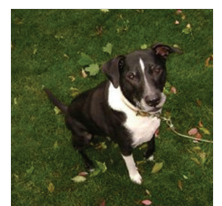

sanctuary for them; we also seek to decrease the number of unwanted animals and the amount of animal cruelty in our community through outreach and education. We are unique in that our philosophy is that ALL pets are worth saving, even if they have behavioral or health problems. This is why we have an area for adoptable cats and are a sanctuary for cats with behavioral, litter box or health problems. Please visit us at www.savingpaws.com

Current pet's looking for a home:

This sweet girl is Kanga. She came to Saving Paws Animal Rescue because her family was in a fire and lost their home. Completely unrelated to the fire, she has no tail. Her balance is just fine though. She is a big fan of love from people, being pampered, and napping in the sunshine. Come and meet Kanga and let her tell you all about her day! If you are interested in meeting Kango, please contact us at (920) 830-2392 or email info@savingpaws.com.

Meet Rymes, he is a lab mix that is around 9 years old. Rymes came to Saving Paws because he was left at his owner's friend's house and never picked up after their vacation. He is very friendly, obedient, and likes to go for car rides and walks! Rymes is housetrained and knows his basic commands. He is wonderful with cats, dogs and children and does very well being home alone loose in the house. He is really hoping to find his forever home, don't let his age discourage you to giving him his dream. If you are interested in meeting Rymes, please contact us at (920)470-PAWS (7297) or email dogs@savingpaws.com.
